NEX METALS EXPLORATIONS LTD

Nex Appoints Operations Manager Kookynie Gold Project

Nex Metals Explorations Ltd (ASX; NME) ("Nex") is pleased to advise the following update and plans for progression of its 100% owned Kookynie Project.

With production from Phase 1 of the Kookynie Gold Project imminent (Dump Leach of the Orient Well Laterites) the board are pleased to announce the appointment of Mr Alan Matthysen as Site Operations General Manager.

Mr Matthysen has held similar positions during his career and recently spent 4 years at the Goldfields St Ives Heap Leach Operation as the Heap Leach Superintendent. Alan is well regarded in the Kalgoorlie community and brings with him to Nex Metals a wealth of Heap Leach Gold Treatment and site civil engineering expertise.

He will oversee the commencement of gold production, ensure that all regulatory environmental issues are met and provide valuable input into broader expansion plans for gold production at Nex Metals 100% owned Kookynie Gold Project (refer ASX announcement 20th Nov 2009, Nex targets 100koz gold production from Phase 2).

Mr Ken Allen
Managing Director
