Final pre construction Approval obtained for the 100% Nex Metals Kookynie Gold Project – Phase 1

Nex Metals Explorations Ltd (ASX; NME) ("Nex") is pleased to announce that the Department of Mines and Petroleum (DMP) has approved the Project Management Plan (PMP) provided by Nex Metals for Phase 1 of the Kookynie Gold Project 200km north of Kalgoorlie on the North Goldfields Highway.

Construction of the Leach pads and gold recovery circuit is now scheduled to start on the 1st of June 2010.

About Nex

Phase 1 is the first step in the Nex Metals 3 Phase Plan for Growth in the 100% owned Kookynie Gold Project.

Phase 1 is the first step in the Nex 3 Phase Plan for Growth in the 100% owned Kookynie Gold Project.

Phase 1 - Swift Low Cost Gold Production, Orient Well Laterite Heap Leach.

Phase 2 - Reoptimisation of shallow previously mined open pits, bulk mining low grade, low ore to waste strip ratio and heap leach gold recovery.

Phase 3 Establishing a High Grade Underground Goldmine supplemented by lower grade feed from surrounding open pits and processing within a Carbon in Leach (CIL) mill.

The Phase 1 ASX reported Mineral Resource Estimate is 2.82Mt @ 0.46 g/t for 41,500 ounces of gold.

Phase 1 is a Laterite Dump Leach. The ore is on the surface, has no waste overburden, and has displayed excellent metallurgical characteristics for Dump Leach gold extraction in rigorous testwork by Nex Metals.

The current Kookynie Gold Project Mineral Resource Inventory stands at 20.16Mt for 622,000 ounces of gold The Directors believe there is huge potential to expand these resources by additional drilling along strike from currently defined gold mineralisation.
