

NAVIGATOR
RESOURCES LIMITED

ASX ANNOUNCEMENT & MEDIA RELEASE

17 August 2011

BRONZEWING TOLL TREATMENT

Navigator Resources Limited (ASX: NAV) ("Navigator") is pleased to advise that further to previous market communication, it has entered into a formal agreement with Nex Metals Exploration Ltd ("Nex") to undertake custom milling at its Bronzewing Gold Project processing plant.

Navigator will treat up to 150,000 tonnes of ore sourced from Nex's project located south east of Leonora in the period up to 31 March 2012, with the first ore parcel of up to 60,000 tonnes of ore expected to be batch treated in September / October 2011. This parcel is anticipated to take 8-10 days to process.

Navigator is pleased to be able to provide Nex with access to its temporary spare mill capacity on mutually agreed commercial terms. Navigator anticipates that, whilst it continues to build its ore supply from Cockburn Pit, it will be in a position to accommodate the balance of the Nex ore within the agreed time frame if required.

ABOUT NAVIGATOR

Navigator Resources Limited (ASX: NAV) transitioned from explorer to gold producer in April 2010 and its objective is to build value for shareholders by becoming a highly regarded and profitable gold producer with a pipeline of advanced projects.

The Company acquired the Bronzewing Gold Project (located 960km northeast of Perth) in late 2009, and this Project recommenced production in April 2010. Navigator also continues to pursue development opportunities at the Leonora Gold Project (located 830km northeast of Perth) by having carried out a trial mining program and ongoing targeted exploration.

Both gold projects are well located with respect to regional infrastructure, being in the heart of the north eastern goldfields region of Western Australia. All required mining permits and granted mining leases are in place both at Bronzewing and Leonora. The Company's medium term objective is to target 150,000oz pa of gold production from these two open pit projects.

Navigator also maintains an interest in assets in the East Kimberley region of WA, including the Cummins Range Rare Earth Project.
