Quarterly Report for the Period Ended 30 June 2012

Highlights:

- 26,860 t of high-grade ore mined from Butterfly Open Pit
- 31,546 t milled at the Brightstar Mill
- 1,638 ounces of gold produced
- Additional mining proposals and reporting ongoing
- Review of exploration prospectivity of other tenements has been ongoing
- \$7,000,000 standby subscription agreement in place with ongoing discussions on Mill financing.

Mining Butterfly Pit

Mining of the Butterfly Open Pit continued during the quarter with diminished production owing to mill breakdowns and improvement notices at the Brightstar Mill. A total of 26,860 tonnes of high-grade ore, 19,641 tonnes of low-grade ore, 9,148 tonnes of mineralised waste and 174,950 tonnes of waste were mined during the quarter (Table 1). This brings the overall mining campaign between February 2012 and June 2012 to a total of 51,053 tonnes of high-grade ore, 25,632 tonnes of low-grade ore, 11,674 tonnes of mineralised waste and 279,638 tonnes of waste.

A total of 26,860 tonnes of high-grade Butterfly ore was transported to Stone Resources' Brightstar Mill during the quarter bringing the overall campaign shipment to 51,053 tonnes. The Brightstar Mill processed 31,546 tonnes (including 789 tonnes of Champion ore) (Table 2) bringing the total processed for the overall campaign to 49,185 tonnes (including 8,896 tonnes of Champion and Puzzle ore). A parcel of 10,764 tonnes of Butterfly ore was not processed during the quarter due to operational issues at the Brightstar Mill and remains stockpiled. Treatment of Admiral, Champion and Puzzle ore has been undertaken as part of ongoing metallurgical research and development. A total of 1,638 ounces was produced during the quarter.

Removal of ore from the pit involved a hired Hitachi EX1200 excavator and a fleet of Nex-operated Cat 777B dump trucks along with several ancillary support vehicles. The low grade ore and mineralised waste was stockpiled on site for future treatment in the Orient Well CIP/Heap Leach facility.

Table 1: Month-by-month production figures from Butterfly Open Pit for the June quarter

Month	High Grade Ore t (grade)	Low Grade Ore t (grade)	Min Waste tonnes (grade)	Waste tonnes	Total tonnes
April	9,821 (2.12)	5,184 (1.25)	4,493 (1.04)	73,498	92,995
May	7,766 (2.53)	12,096 (1.18)	1,142 (0.97)	49,958	70,963
June	9,273 (2.64)	2,361 (1.21)	3,513 (0.86)	51,494	66,643
Total	26,860	19,641	9,148	174,950	230,601

*grade in g/t

Table 2: Month-by-month gold production figures from Butterfly Open Pit for the June quarter

Month	Mill Feed (t)	Recovered Gold (g)	Recovered Gold (oz)*	Weighted Head Grade (g/t)
April	14,706	26,061	838	1.77
May	12,278	18,448	593	1.50
June	4,562	6,453	207	1.41
Total	31,546	50,962	1,638	1.61

Exploration Activities

A full prospectivity review of Nex Metals' tenement holdings was initiated during the quarter with the intention of prioritising further resource development at the Kookynie Project. This strategic review is ongoing, but initial results suggest there is significant potential for additional resource development in the immediate vicinity of known resources. Structural geology analysis has been undertaken for the Butterfly-Admiral area to elucidate targets of upcoming exploration drilling.

Financing

In June 2012, Nex Metals entered into a standby subscription agreement with Gurney Capital Nominees Pty Ltd. The total facility, of which drawdowns can be made subject to certain terms and conditions, is \$7,000,000. Nil amounts have been drawn down on this facility in the quarter ended 30 June 2012.

The Company has had ongoing discussions with a Hong Kong based Company with respect to funding and complete Mill construction.

Reporting

Various reporting and permitting requirements have been conducted during the quarter including a Annual Environmental report, Mining Closure Plan, Annual Water Report and a Mining Proposal for the southern tenements of the Kookynie Project.

Responsibility Statement

The information in this report that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Rob L'Heureux, who is a Member of the Association of Professional Engineers, Geologists and Geophysicists of Alberta (Canada). Mr. L'Heureux M.Sc., P.Geol., who is a full time employee of APEX Geoscience Ltd., has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity undertaken to qualify as a Competent Person as defined in the 2004 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr. L'Heureux consents to the inclusion in this report of the matters based on their information in the form and context in which it appears.

Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Financial Reporting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
