Dear Sir/Madam

Quarterly Report for the Period Ended 30 September 2016

Nex Metals Explorations Ltd (Nex or the Company) provides the following update on recent Company activities.

- Kookynie Gold Tailings
- Evaluation of various projects.
- Continuation of Legal Action.

Kookynie Gold Tailings

The Company has investigated Gold tailing sands at its Cosmopolitan, Cumberland and Altona and Yundermintera Gold projects. Feasibility studies have been developing during the quarter for re-processing of the tailings as a source of short term cashflow considering the current positive gold price. Assays of the tails have been submitted and we are awaiting analysis. Preliminary scoping discussions have been held with the Department of Minerals and Petroleum. Processing options are being assessed including methodologies developed over the last 4 years. The Company is seeking the assistance of additional propriety low cost processing methods from a team of scientists at Curtin University. Additional assays have also been submitted to Curtin University for more metallurgical testwork. Systematic drilling of the tailings will occur during the next quarter. The Company will provide more details once assays are analysed.

Evaluation of Projects

The Company continues to have projects presented to it for evaluation during the past quarter extending from Gold, base metals and copper. The Company takes the view that in the current commodities market that projects need to show exceptional value for the Company to proceed to any type of acquisition arrangement.

Continuation of Legal Action

The Supreme Court action with Stone Resources Australia Limited (ASX:SHK) is still pending experts reports to be submitted to the Court.

Administration

The 2016 rebate for Research and Development is expected to be received in the next Quarter.

The Company has funds due from outstanding debtors of \$160,000 and balance of the sale of the Kookynie project of \$1,067,000 (plus interest). The Company has completed transfers of tenements (Kookynie Gold Project) into the Company's name being the subject of sale to A & C Mining. This completes any barrier to completion of the sales process and hence transfer of balance of funds the Company.

The Company continues to manage the Kookynie Gold project.

Responsibility Statement

The information in this report that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Rob L'Heureux, who is a Member of the Association of Professional Engineers, Geologists and Geophysicists of Alberta (Canada).
