Perth WA 6000

Dear Sir/Madam

### **Quarterly Report for the Period Ended 30 June 2018**

Nex Metals Explorations Ltd (Nex or the Company) provides the following update on recent Company activities.

- Operating Plan
- Processing Mill
- Evaluation of various projects.

#### **Operating Plan**

The Company during the quarter finalised a 5-year operating plan in conjunction with consultants which includes the Kookynie tailings along with, Yundamindera deposits, Leipold, Champion, Cumberland and McTavish near surface deposits.

The Company is in the process of sourcing funding for the drilling programs, the pilot plant and working capital which retains the maximum advantage for existing shareholders.

#### **Processing Mill**

The Company during the quarter continued to engage with consultants and suppliers with respect to the design of a pilot processing mill as a continuation of work previously undertaken by Nex. Baseline capacity is set for 1,000 tonne per day. The initial pricing has come in at circa \$2,500,000 ex works with an additional allowance of \$1,500,000 for transportation, assembly and commissioning. This is obviously subject to funding. In addition, another opportunity has been presented to the Company which would mitigate the cost of the plant to nil cost, but this is at a preliminary discussion stage.

#### **Evaluation of Projects**

The Company continues to have projects presented to it for evaluation during the past quarter, extending from Gold, base metals, copper and heavy mineral sands. The Company during the quarter assessed a Heavy Mineral Sands Project in Malaysia during but could not reach acceptable terms appropriate to the Company.

#### **Administration**

The Company has funds due from outstanding debtors of \$331,508, of which most was received in the month of July.

As advised in the previous quarter the Company had an unsolicited and draft offer during the quarter for capital and project injections into the Company effectively as a reverse takeover. The Company deferred this offer as not being appropriate and lacking merit for existing shareholders.

#### **Responsibility Statement**

The information in this report that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Rob L'Heureux, who is a Member of the Association of Professional Engineers, Geologists and Geophysicists of Alberta (Canada). Mr. L'Heureux M.Sc., P.Geol., who is a full-time employee of APEX Geoscience Australia Pty Ltd., has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity undertaken to qualify as a Competent Person as defined in the 2004 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr. L'Heureux consents to the inclusion in this report of the matters based on their information in the form and context in which it appears.

**Notes**

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
